

Kyzen is the leading provider of products and processes for precision cleaning in advanced technology manufacturing environments. Kyzen products are designed to solve the toughest cleaning challenges with award-winning results.

AQUANOX®

Aquanox® A4625B

An innovative aqueous chemistry specifically designed for optimum effectiveness in batch washers.

Aquanox® A4625

Designed for optimum effectiveness in removing pastes, tacky flux, rosin flux, no clean flux and all leading lead-free fluxes.

Aquanox® A4520

All temperature aqueous electronics cleaner. This product is designed to clean all types of flux and paste under low standoffs and tight spaces with the lowest cost of ownership in the industry.

Aquanox® A4615

A low VOC cleaner for flux and reflowed solder paste similar to A4520. Also available for ultrasonic cleaning processes.

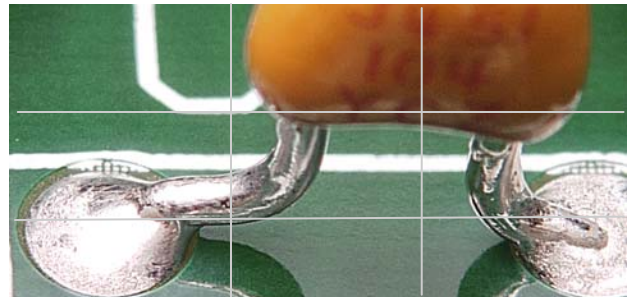

Aquanox® A4512US

A mild aqueous amine blend specially designed for immersion/ultrasonic applications removing pastes and no clean flux.

IONOX®

Ionox® I3302

High-strength semi-aqueous cleaners designed for flux cleaning of lead-free, high-lead and eutectic soldering processes.

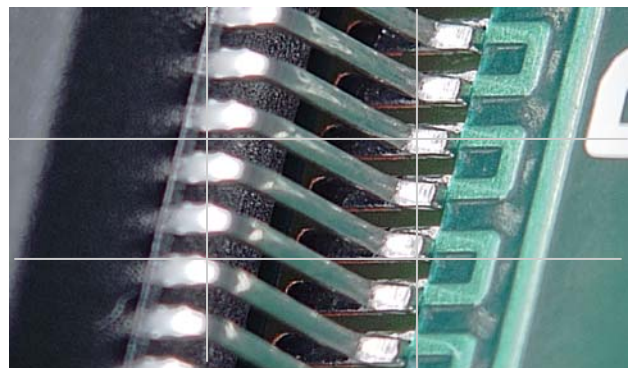

LONOX®

Lonox® L5611

Versatile aqueous cleaning solution designed to clean raw solder paste, adhesives, uncured and misprinted PCBs in aqueous cleaning systems.

Lonox® L5314

A water soluble concentrated cleaning chemistry designed for cleaning stencils and pallets and maintenance cleaning.

MANUAL/BENCH-TOP CLEANING

Cybersolv® 141-R

Environmentally friendly aerosol cleaner for bench-top rework and general flux cleaning of rosin and low residue flux formulas.

Ionox® BC

Industry standard semi-aqueous solvent.

Cybersolv® C8440

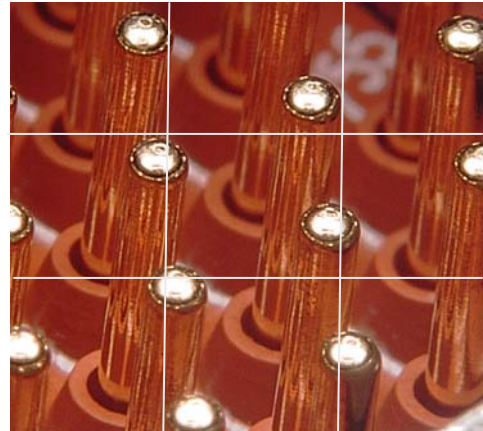

Non-flammable solvent for fluxes, adhesive and dielectrics.

Ionox® I3400

Heavy-duty cleaning solvent for under stencil and general wipe applications.

Ionox® I3412/I3418

High-strength solvent cleaners for stencils and general electronics cleaning. This product is effective in cleaning un-cured chip bonding adhesives.

EQUIPMENT MAINTENANCE CLEANING

Cybersolv® C8501/C8502

Environmentally friendly wave solder and reflow oven cleaner designed to rapidly remove all types of baked-on flux residues. C8501 is formulated thicker to stay where sprayed.

Kyzen Industrial Floor Cleaner 11

Biodegradable and an environmentally safe concentrate.
