

Welcome to CCR: Electronics Process Materials

Our focus is on providing you with the best quality products for your specific needs. With our intimate understanding of the microelectronics manufacturing industry, and two decades of experience in products management and distribution, we are confident that our offering is the best in the industry. Our advantage is our partnerships with like companies, where value is placed on quality, reliability, service, & solutions. CCR is an ISO 9001:2000 certified company.

Browse through our website at www.ccrepm.com for more information on our partners and products, or contact CCR directly and we'll be happy to assist you in selecting the right product for your specific requirement.

Our Product Offering

Indium Corporation is a premier materials supplier to the global electronics, semiconductor, solar, thin film and thermal management markets. Products include solders, preforms, and fluxes; brazes; sputter targets; indium, gallium, and germanium chemicals and sourcing; and Reactive NanoFoil®. Founded in 1934, Indium has global technical support and factories located in China, Singapore, South Korea, the United Kingdom, and the USA.

*ADVANTEK

With 25 years experience in Carrying Tomorrow™, we have accumulated the tape & reel industry's most impressive and most intelligent series of core technologies. As the recognized market leader, we know how to put these technologies to use in order to produce the most practical and reliable tape & reel products

"Known as "The world leader in UV adhesives and epoxies," offering the EMCAST & OPTOCAST materials, Electronic Materials Incorporated has over 15 years of experience formulating and manufacturing UV curable adhesive and epoxy systems for many different industries.

At Kyzen we know cleaning is more than just outstanding chemistry, it is about Process; delivering the right amount of chemistry at the right time and getting the most value by properly conditioning the wash tank. Our focus on "Wash Tank Conditioning" is to bring the cleaning chemistry, equipment, and water treatment all together in an integrated solution.

Kyzen provides application specific chemistry for your aqueous in-line, single chamber batch spray console or ultrasonic and immersion cleaning tools. Proven performance and cost effective they are safe on all types of substrates used in OEM, CM, Military and Space Hardware.

JNJ INDUSTRIES

JNJ Industries is your single source provider for the components, solvents and consumable supplies essential to maintain the highest quality standards in the assembly and manufacturing process. The printer components line features both JNJ designed, and OEM specification squeegee blades and holders, and understencil wiping rolls.

The quality of Techspray's products and the demand for the products has led to the growth of a highly regarded research and development department that, for a business of Techspray's size, is a phenomenal accomplishment.

Smart Splice LLC

Providing splicing products to The Electronics Industry, 8mm Double Splice Tape makes perfect alignment and reliable joints an easy process. Joining is accomplished without the use of any tools or fixtures, with precise pitch spacing using convenient, pre-cut lengths of tape.
